

Simplot Honored for Environmental Stewardship

Simplot's Lower Columbia Basin Grower Solutions unit in Umatilla, Ore., has been honored as one of only 20 winners for 2009 in the nationwide Environmental Respect Award competition.

The annual competition, sponsored by DuPont Crop Protection and conducted by CropLife and Farm Chemicals International magazines, recognizes and promotes environmental stewardship among farm supply retailers and distributors around the world.

A panel of industry experts selected the Simplot Grower Solutions unit based on excellence in site design, storage and handling procedures, emergency preparedness and response, and leadership in safety and stewardship, according to award organizers.
