

BENEFITS

- Agronomic expertise to select blends, species and varieties, including explanation of advantages and disadvantages.
- Premium quality seed lots including Jacklin's "Gold Tag" program.
- Potential solutions for changing markets and production challenges.
- Front line access to new experimental lines of turfgrasses which may not be available via university trials.
- Frequent research updates and quarterly newsletters specific to the areas of greatest interest and application to the sod producer.
- A portion of every gold sod tag goes to support The Lawn Institute. (Tentative start date 2009.)
- Partnering opportunities with Jacklin*Golf* agronomists.
- Annual educational seminar in conjunction with the Turf Producers International (TPI) conference.
